Dear Parents,

We are already thinking of the year ahead and would like to ask for your assistance in planning for our students. While most children transition easily from grade to grade, there may be special physical or emotional circumstances that we need to be aware of. If this is the case for your child, please take a moment and let us know on the lines below. It isn't possible to honor requests for specific teachers; however, we will be sure to consider all factors in carefully planning a successful year for your child. Thank you for your time and support. It is sincerely appreciated!

Julie English
